

January Events!!!

by Hannah Mcsweeney and Ruth Callaghan

In January we were all very busy getting back into our old routine from Christmas.

Ms.Conran's 6th class started and finished their novel, I am David and when they were finished they watched the movie.

Ms.O'Connell's 6th class did lovely art all about floating into 2018. Their artwork includes pictures of them holding onto balloons as they're floating into 2018!

Ms. Browne's 5th class did geography projects, they're all about different things, some of them were about Russia, New Zealand and India. They were very interesting and probably fun to do.

Ms. Finn and Ms. Thuillier's 5th class have carried out science experiments, their latest one has been filtering water. They also did Morse code. They also carried out a beautiful religious ceremony which was all about entering the New Year and hoping this year will be as great as last year. It was held in the halla during assembly.

Ms. O' Sullivan's 4th class were very imaginative when they were working on there descriptive writing. They were about all sorts of different things such as princesses, fairies, dragons and so on.

They got on fantastically during the month of January!!
