

Work for Week 10

Wednesday 3rd June 2020 – Friday 5th June 2020

Dear Parents and Girls,

Well we're into the home stretch, hard to believe it's the beginning of June! I know usually during this month we would have sports day and school tours and lots of other fun things but don't worry girls we will try and create some of these fun activities online this year, but for now keep working away at the activities outlined in the daily timetable. Try and have fun with the work, go out and enjoy the good weather, play outside, build or make something, go for walks, observe nature. I found a little bird's nest in my shed, I'll put some pictures at the end with some nature worksheets/scavenger hunts! Look at some of the booklets I posted for Active Schools Week, (Week 6) try and make an obstacle course or create your own sports day with your family. Send me pictures!! Make the most of this time off girls and enjoy spending it with your family.

Take a look at the new section on the website **BOREDOM BUSTERS!!** Here there are lots of ideas and fun games that you can try on your own or with your family.

https://stpatricksgirls.net/?page_id=6449

This week is a short week, only 3 days! Try your best with the work and remember I would love to see some of your work so you can email me at 5thclass@stpatricksgirls.net using your parents email address.

Also watch out for Mrs Kelly's challenges. They are usually at the top of the list of each new week's work.

Have a good week, be good and remember to stay safe by practicing all our good Hygiene rules.

Ms. O'Sullivan ☺

Daily Timetable of Work

9:00 – 9:30: **Exercise**

9:30 – 9:55: **Gaeilge**

9:55 – 10:20: **Maths**

10:20 – 10:45: **English**

10:45 – 11:00: **Break**

11:00 – 12:00: **Watch RTE Home School HUB**

12:00 - 12:45: **Project Work**

12:45 – 1:15 **Lunch**

1:15 – **Free Time**

Wednesday 3rd June

9:30 – 9:55: Gaeilge

Seo iad na ceartúcháin ón seachatin seo caite. (Here are last week's corrections.)

SEO LEAT page 102 A

1. Chonaic na cairde dhá ghabhar I lár an bhóthair.
2. Rug Ollaí ar Mheigeall.
3. Thug Beití mála síolta d'Aoife.
4. Thug Aoife na síolta don mhúinteoir.
5. Chuir na páistí na síolta sa talamh.
6. Léim na páistí mar tháinig beach isteach sa seomra ranga agus shuigh sí i lár an bhoird.
7. Phreab an múinteoir agus rith sí amach an doras ar nós na gaoithe.
8. Chabhraigh Ollaí agus Hollaí leis an múinteoir.

Seo Leat page 103 D

1. Chaith an buachaill dána an bruscair ar fud na háite.
2. Dhoirt Fionn an bainne ar fud na háite.
3. Shéid an deatach ar fud na háite.
4. D'éitil an spideog ar fud na háite.
5. Thit na litreacha ar fud na háite.

Litriú:

Read, say and learn the words from the word mats below.

Spend 10 minutes at this each day. There will be a challenge on Friday to see how many you can remember and write!!

Léamh: Féach ar na mata focail agus léamh na focail nua.

Try some of the examples below.

11. $359 \div 4$

12. $738 \div 7$

13. $453 \div 8$

$832 \div 9$

$935 \div 6$

507 ÷ 4

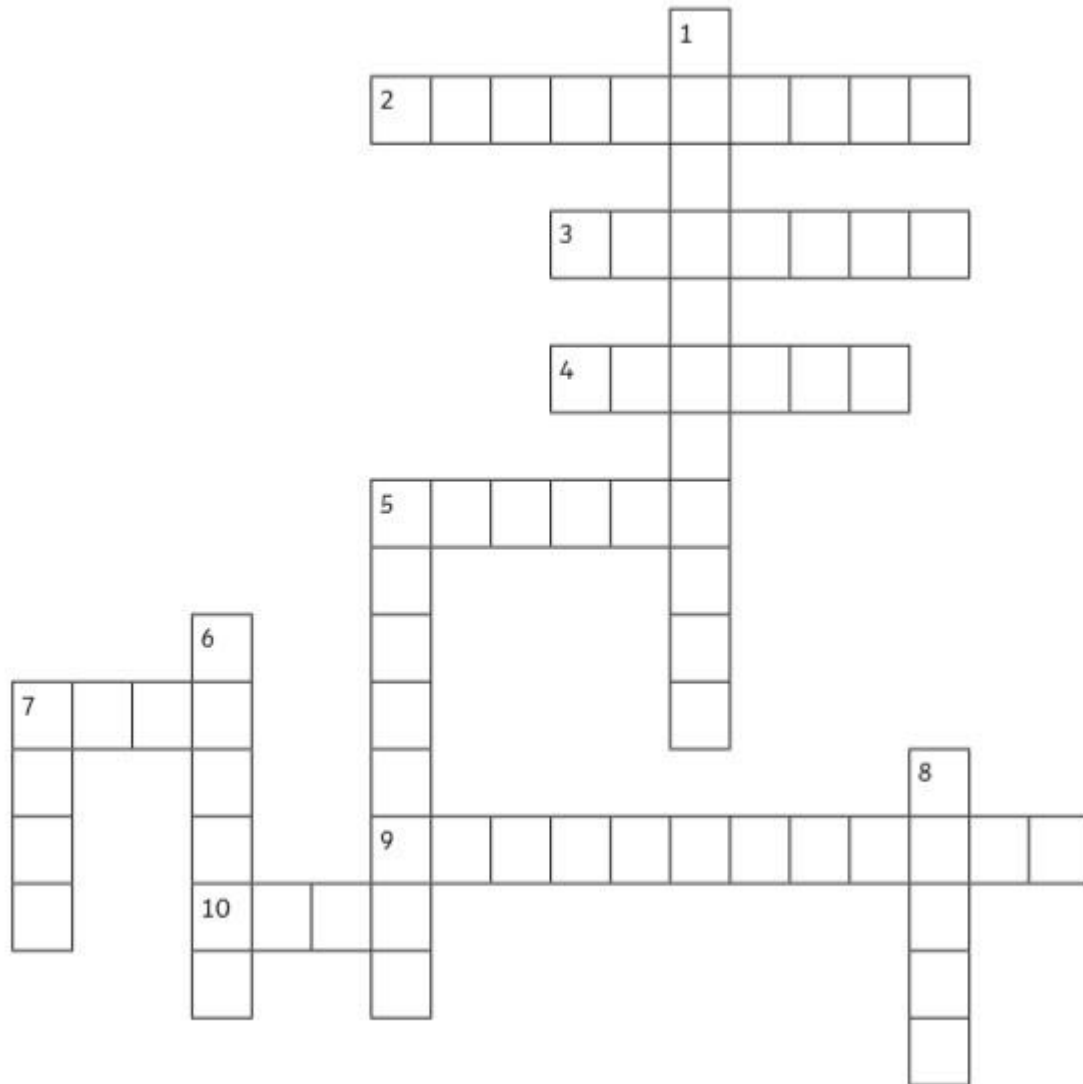

$766 \div 8$

$643 \div 9$

244 ÷ 6

Wednesday's Maths Challenge: Try this crossword based on last week's chapter 3D – Shapes!

3D Shape Crossword

3D Shape Crossword - Clues

Across

2. This shape has 8 faces, all of which are equilateral triangles.
3. A 3D shape where the base is a polygon and the sides are triangles which meet to create an apex.
4. This 3D shape has one curved surface. Every point on the curved surface is an equal distance from the centre of the shape.
5. This 3D shape has six rectangular faces.
7. This 3D shape has six square faces.
9. This 3D shape has twelve faces.
10. The mathematical name to describe where the sides of faces meet on a 3D shape.

Down

1. This shape has 4 faces, all of which are equilateral triangles.
5. This 3D shape has 2 circular faces and a curved surface.
6. The mathematical name for the corner of a 3D shape.
7. This 3D shape has a circular face, a curved surface and an apex.
8. A 3D shape where the cross section is the same all along its length.

10:20 – 10:45 English:

Here are last week's answers U&R 'Strange Flying Machines' pg 212 – 217

Page 216 B What have you learned?

1. Elmer of Malmesbury was injured when he tried to fly from the tower of Malmesbury Abbey. He crashed into the ground, breaking both of his legs.
2. Leonardo da Vinci could not produce a flying machine because he did not have the means to power it. Engines were not invented until after his time.
3. Leonardo would probably have advised Elmer not to attempt to fly as it would be a disaster.
4. Clément Ader and Horatio Phillips designed aircrafts that were powered by steam engines.
5. The French were obviously interested in flight as a number of inventors and designers were French.
6. Phillips and Caproni used lots of wings in their inventions.

7. The Americans did not use the Spruce Goose because it was too expensive and took too long to build.
8. The Convair NB-36 was unusual because it was powered by a nuclear reactor.
9. The Convair NB-36 was always followed by another plane as a safety measure in case it crashed. The paratroopers in the second aircraft would have to secure the crash site and prevent anyone from coming into contact with the deadly radioactive wreckage.
10. Give a reason for your answer.

Page 216 C True or false.

1. False. 2. True. 3. True. 4. False. 5. False. 6. False. 7. True.

Try some of the word problems below. Remember....

Divide, **M**ultiply, **S**ubtract, **B**ring **D**own.

Long Division

Does My Sister Burp?

D: Divide

M: Multiply

S: Subtract

B: Bring down

3. A pupil has collected 780 stamps. He has 15 pages in his stamp book. How many stamps will be on each page?
4. A man ran 22 miles in 308 minutes. On average, how long does it take him to run a mile?
5. A toy factory produces 4536 toys a day. There are 21 machines making the toys. How many toys does each machine produce?

[Thursday's Maths Challenge:](#)

Make five numbers

Take ten cards numbered 0 to 9.

Each time use all ten cards.

Arrange the cards to make:

- a. five numbers that are multiples of 3
- b. five numbers that are multiples of 7
- c. five prime numbers

Make up more problems to use all ten cards to make five special numbers.

61

Teaching objectives

Solve mathematical problems or puzzles.
Know 3 and 7 times tables.
Recognise prime numbers.

10:20 – 10:45 English:

Reading: U&R pg 240 – 243

Writing: U&R pg 245 E Complete the Cloze Procedure

of long division:

Watch the video revising LONG DIVISION again <https://youtu.be/phnSDMtBD1k> Try some of the word problems below.

Remember....

Divide, **M**ultiply, **S**ubtract, **B**ring **D**own.

7. A box of sweets contains 357 sweets in a total of 21 packets. How many sweets are in each packet?

 8. A local football club's full attendance equals 192 people. If there are 12 rows of seats in the stadium, how many people sat in each row?

 9. A local charity has raised £1425. They want to share this money between 15 good causes. How much money will each of the good causes receive?

 10. A cinema, when full, holds 968 people. If 22 people can sit in each row, how many rows are there?
-

Friday's Maths Challenge:

Flash Harry

In April Flash Harry bought a saddle for £100.
In May he sold it for £200.

In June he was sorry he had sold it.
So he bought it back for £300.

In July he got tired of it.
So he sold it for £400.

Overall, did Flash Harry make or lose money?
How much did he make or lose?

Teaching objectives

Solve mathematical problems or puzzles.
Use negative numbers.

64

10:20 – 10:45 English:

Reading: U&R pg 240 – 243

Writing: U&R pg 244 C and D

Take a look at this video again all about Train Journeys of the World

<https://youtu.be/fksIRh5kWoo>

Check back on what we learned yesterday about Advertising. Design an Advert for a train journey of your choice. Use information from pgs 240 – 243 and the video, or make it up.

The information doesn't have to be real but try and include the Features of a good ADVERTISEMENT.

Project Work – Use this time to finish uncompleted work. If you have all this done and want more, choose something from the 'BOREDOM BUSTERS' section on the school website. Click on the button at the top of the school website or follow this link below.

Leaf hunt

☐ Alder

☐ Ash

☐ Beech

☐ Birch

☐ Elder

☐ Field maple

☐ Hawthorn

☐ Hazel

☐ Holly

☐ Horse chestnut

☐ Oak

☐ Rowan

☐ Sycamore

Have you found any other leaves? Draw or stick them here and find out their names:

Study of

_____ tree.

Name: _____

Weather: _____

Date: _____

1. How far to tree? _____

2. Look at the tree. Draw it.

3. Do a bark rubbing

4. Hold hands around the tree.

What is the length around?

5. Look for birds in the tree

6. Look for minibeastss on or near the tree

Study of

_____ tree.

Name: _____

Date: _____

Weather: _____ Temperature: _____ °C

1. Sketch the Tree

2. Is it deciduous or evergreen? _____

3. Look at a twig and bud. Observe shape, pattern and colour.
Draw the bud.

4. Look at the bark. Notice the pattern and colour.
Do a bark rubbing.

5. Examine the bark of the tree. Look for plants growing on the bark.

6. Are there seeds on or under the tree? _____

Look closely at seeds.

Take some seeds back to the classroom.

7. Use hangers to look at the plants growing underneath the tree.

How many different plants can you see? _____

Which plant is the most common? _____

Draw the different plants.

8. ~~Minibeasts~~ ~ Look for and draw any ~~minibeasts~~ you find on and under the tree.

- ~~Shake a branch.~~ Collect ~~minibeasts~~ in a sheet.
- Look for ~~minibeasts~~ on the ground under the tree.

9. Are there birds in the tree? _____

10. Measure the circumference of the ~~tree~~ _____

11. Can you measure the height of the tree? _____

A Minibeast Hunt

Name _____

Refer to the Teacher Guidelines P.62-67 and P.70 - 72 before going on the minibeast hunt. Where did you find your minibeasts?

						
In the grass						
Under a log						
Under a stone						
In the air						
In a tree						

Where did you find the most minibeasts?

Where did you find the least minibeasts?

Why do you think this was?

Make a bar chart to show the numbers of minibeasts they found.
